

Dear FCC - I am an avid listener of Air1 Radio 100.7 & 90.1, and depend on it's positive messages in my daily, spiritual walk. Many of my friends and family are also longtime listeners and place a great importance on this station everyday. Displacing it with other general programming would have a negative effect on many people. Not only does Air1 serve the Christian community to a great degree, it also touches people's lives everywhere through it's testimonies and positive messages and music on a daily basis. It has touched countless lives who were looking for hope in life. I would only ask that if at all possible, that you would allow a station such as Air1 to exist either way, because of it's great impact! thank you.
